# Shahzaib Sajjad

PECHS Block 6, Karachi • shahzaibarain.0080@gmail.com • linkedin.com/in/shahzaib-sajjad-373a02276 • github.com/shahzaib-arain • 0324-3507354

## Education

**Mohammad Ali Jinnah University (MAJU)**                                         Karachi, Pakistan
Bachelor of Science in Software Engineering                                         2023 – Present
(Expected Graduation: 2026)

**Army Public School and College (APS)**                                         Shikarpur, Pakistan
Intermediate (Pre-Engineering)                                         2021 – 2023

## Experience

**Voxtron (Pvt) Ltd**                                         Karachi, Pakistan
**Software Engineer**                                         June 2025 – Present
- Promoted after a 3-month internship for exceptional performance.
- Built scalable backend systems and a centralized platform for billing, payments, and notifications.
- Ensured high-quality features through best practices, clean code, and code reviews.

## Projects

**MindMapAPI**                                         Java, Spring Boot, MongoDB, Redis, Kafka
GitHub Repository
- Secure Journal API with JWT, RBAC, and CRUD operations.
- Sentiment analysis, email alerts, Redis caching, and Kafka events.

**QuizHub Microservices**                                         Java, Spring Cloud, MySQL, Eureka
GitHub Repository
- Microservices with Eureka, API Gateway, Feign Clients, and Load Balancing.
- Quiz/User Services with CRUD and role-based access; React frontend.

**DermaCare – Healthcare Platform**                                         Java, Spring Cloud, Docker, Eureka
GitHub Repository
- 7+ microservices with OAuth2 + JWT, API Gateway, Eureka, Config Server.
- Kafka alerts, hybrid MySQL/MongoDB persistence, Dockerized deployment.

## Skills, Certifications & Languages

**Technical Skills:** Java, Java Core, JDBC, SQL, Spring Boot, Spring Security (JWT, OAuth2), Spring Cloud, Microservices, REST APIs, API Gateway, Eureka, Config Server, Feign Client, MySQL, MongoDB (Atlas), Redis, Kafka, ReactJS, Redux, Docker, Git/GitHub, Swagger, Logback, Resilience4j, SOLID, OOP, SDLC, Design Patterns, Agile.

**Certifications:**
- Scrum Fundamentals Certified (SFC®)
- Spring Boot — Udemy
- Java Spring Framework 101 Certification
- MongoDB Certification
- Certified in Building Microservices-Driven Applications

**Languages:**
- English (Professional Working Proficiency)
- Urdu (Native/Bilingual)
